Professional Summary

Full Stack Developer with 4+ years of experience building scalable web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js), Shopify and Laravel. Experienced in developing custom Shopify themes, Shopify app development, Checkout Extensibility, Shopify Functions, and REST APIs. Proficient in JavaScript, TypeScript, React.js, Next.js, Nest.js, and modern frontend development with a strong focus on performance, scalability, and clean code.

Skills

- Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
- Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS, Material UI, Bootstrap
- Backend: Node.js, Express.js, Nest.js, Laravel
- Shopify: Shopify Theme Development, Liquid, Shopify CLI, Shopify Admin API, Storefront API, Polaris, App Extensions, Webhooks
- Databases: MongoDB, PostgreSQL, MySQL
- ORM: Type, Prisma, Sequelize
- Tools: Git, GitHub, Bitbucket, Jira, Trello, VS Code, Postman
- Deployment: Vercel, Netlify, Render
- Operating Systems: Windows, Linux

Education

GTU, SREZ collage - Computer Science And Engineering Science 2019 – 2022

- CGPA: 8.0/10

Experience

Software Engineer, Tatva Soft - Rajkot June 2023 – Present

- Developed scalable React.js applications using reusable component architecture.
- Built responsive UI using React.js, Redux Toolkit, Material UI and Tailwind CSS.
- Integrated REST APIs and optimized frontend performance using lazy loading, memoization and code splitting.
- Collaborated closely with backend and UI/UX teams following Agile methodology.
- Improved application performance and reduced page load time through frontend optimization techniques.
- Maintained clean code standards using Git workflows and code reviews.
- Developed custom Shopify themes and reusable sections using Liquid, improving store customization and maintainability.
- Built custom Shopify sections and reusable theme components.
- Customized Shopify Checkout and storefront functionality.
- Implemented third-party app integrations.

Jr.Software Engineer, Tri-state Technology - Ahmedabad June 2022 – June 2023

- Designed and developed scalable RESTful APIs using Node.js and Express.js for enterprise web applications.
- Designed scalable backend architecture using MongoDB and PostgreSQL.
- Implemented secure authentication using JWT.
- Integrated third-party APIs and payment gateways.
- Optimized database queries resulting in improved application performance.
- Collaborated with frontend developers for API integration.
- Followed Agile development practices and Git version control.

Projects

TERRE DES HOMMES SUISSE - TDHS
Tech Stack: React.js, Node.js, Express.js, PostgreSQL

- Built modules for NGO operations supporting children's rights initiatives.
- Developed secure REST APIs.
- Improved API performance by implementing Version 2 architecture.
- Enhanced database design and authentication.

LOGGY - CAR MAINTENANCE TRACKER
Tech Stack: React.js, Node.js, Express.js, SQL

- Built vehicle maintenance tracking platform.
- Focused on data accuracy, performance, and seamless user experience.

POP - POWER OF PRAYER
Tech Stack: Flutter, Node.js, Express.js, PostgreSQL

- Developed a faith-based community platform that empowers users to take greater responsibility for their prayer life.
- Updated the application to the latest version, upgrading dependencies to ensure improved performance, stability, and maintainability.

EVENT MANAGEMENT SYSTEM
Tech Stack: React.js, Node.js, Express.js, PostgreSQL

- Developed event creation, ticket booking/cancellation, and dynamic seating management features.
- Integrated Nodemailer for automated email notifications.
- Implemented Socket.io for real-time in-app notifications.
- Built and integrated REST APIs to support frontend functionality.

JOB JUNCTION
Tech Stack: React.js, Node.js, Express.js, PostgreSQL

- Developed a job portal for recruiters and job seekers.
- Built job posting, proposal management, and messaging modules.
- Created reusable React components for improved maintainability.
- Integrated REST APIs for seamless frontend-backend communication.
- Implemented responsive user interfaces for multiple user roles.

RuleForge
Tech Stack: Shopify, React.js, Node.js, Express.js, PostgreSQL, Shopify Polaris, Shopify Functions

- Developed a Shopify embedded app for advanced checkout validation and customization using Shopify Functions and Checkout UI Extensions.
- Built a no-code rule builder with React.js, Shopify Polaris, and Express.js for managing checkout, payment, and shipping rules.
- Integrated Shopify Admin Metafields, and Webhooks to synchronize rules and track real-time checkout analytics.
- Developed scalable backend services using Node.js, Express.js, and PostgreSQL with support for rule versioning, scheduling, and analytics dashboards.
